### PROFESSIONAL EXPERIENCE

#### Kelna AI Emarat Association — United Arab Emirates Accounting & Administrative Operations Specialist

2017 – Present

##### Accounting & Financial Management

- Prepare and maintain comprehensive monthly financial statements, expense reports, and supporting documentation in accordance with organisational standards.
- Administer petty cash fund, including disbursements, reconciliation, and replenishment, ensuring accurate records and compliance with internal controls.
- Record, classify, and analyse all income and expenditure transactions; monitor budget allocations and report variances to management.
- Manage accounts payable and accounts receivable cycles, ensuring timely processing of invoices, payments, and collections.
- Perform monthly bank and cashier account reconciliations, identifying and resolving discrepancies promptly.
- Compile and organise financial documentation packages for external auditors, facilitating smooth annual audit processes and preparation of final financial statements.

##### Administrative & Operational Support

- Oversee daily administrative workflows, including document management, correspondence, scheduling, and inter-departmental coordination.
- Maintain structured digital and physical filing systems for financial, administrative, technical, and media records.
- Liaise with external service providers, vendors, and government entities to support operational continuity.

##### IT Support & Technical Operations

- Manage and maintain the organisation's IT infrastructure, including LAN/WAN networks, routers, switches, access points, servers, computers, and peripheral devices.
- Install, configure, and update operating systems, enterprise software, and security applications across all employee workstations.
- Administer corporate email accounts, user access permissions, data backup procedures, and cybersecurity awareness protocols.
- Coordinate with telecommunications providers (du, Etisalat/e&) for service contracts, technical escalations, and infrastructure upgrades.

##### Digital Media, Design, Video Production & AI Content Workflows

- Design professional visual content for official communications, social media campaigns, event materials, certificates, and awareness initiatives.
- Produce and edit video content for events, institutional announcements, reels, and multi-platform social media channels.
- Manage content strategy and publishing schedules across Instagram, TikTok, Facebook, X (Twitter), and YouTube.
- Develop structured AI prompts for cinematic image generation, Arabic typography treatments, and video animation concepts.
- Review and quality-assure AI-generated outputs for brand consistency, visual accuracy, and publishing readiness.
